REACH E-Z

Why climb into your truck bed?

"With the Reach E-Z, you can easily reach everything in your truck bed while standing behind the tailgate!"

www.reache-z.com

Also great for other uses!

Unique Tip

The Reach E-Z tip is designed to slide in the grooves of pickup beds and bedliners allowing you to get underneath and hook items. It is extremely effective at hooking into cardboard and catching the plastic lips on the bottom of buckets.

The yellow tip is designed to be visible in low light, so you don't need to roll up your bed cover to easily remove what you need. It's made from super tough nylon and is guaranteed unbreakable under normal usage.

"The Reach E-Z is a MUST HAVE tool with unlimited uses!"

Set Screw

The set screw allows you to loosen the tip and re-position it at different angles.

- Turned sideways or in its original position, it works great for hanging holiday decorations on houses and trees.
- Turned 180 degrees, it makes a good hook for retrieving duck decoys and lines.

Handle

The end of the handle screws off to reveal a threaded connector.

- This is designed for attaching an ice scraper.
- It also works great for attaching a paint roller, squeegee, duster, or any other standard item that has a female connector.

Brush

- Assembles in seconds.
- Reaches all the way across your windshield, so you can clear away snow in a few easy swipes.
- Great for sweeping out your truck bed.
- Can also be used as a light duty shop broom by unhooking the single vertical clip.

Easy Installation

Simply bolt the metal clip to a convenient location in the bed of your pickup truck. (You can also secure the clip to a wall in your shop or garage to keep the Reach E-Z within reach at all times.)

Also Great For:

- Vans, Suburbans, and SUVs
- Hanging holiday decorations
- Cleaning rain gutters
- Landing boats
- Anything you can't quite reach...
