DU-HA®

00-07 Chevrolet & GMC Heavy Duty Crew Cab (Classic)
Behind-the-Seat Storage

Fits DU-HA Part Number
10013

Materials Needed:

// Drill   // 5/16" Drill Bit   // 7/16" Wrench   // 7/16" Socket   // Ratchet

Installation Instructions:

1 Pull and recline front seats all the way forward. Flip bottom of back seat up and fold seat back down.

2 Set the DU-HA in truck, centered on the floor, with the DU-HA lettering facing forward (as pictured). Make sure the slot in the DU-HA is aligned with center child safety seat bracket.

3 With the DU-HA centered on floor, use the DU-HA as a template to mark and drill two 5/16" holes in the floor flaps. Flip up front flap to make sure the DU-HA is positioned against rear of the cab before drilling. *(Note: It's best to secure driver's side first before drilling passenger's side. If you do happen to drill into duct below floor flaps, these are only pressure release vents for cab pressure so a hole will not affect them.)*

4 Secure DU-HA to floor flaps using included bolt and washer. Place bolt through DU-HA and floor flap. Secure with washer and lock nut. Tighten down using ratchet with 7/16" socket and 7/16" wrench.

5 Secure top of DU-HA to center child safety seat bracket using nylon strap. Thread the strap through the front middle slot in the DU-HA, then through the center child safety seat bracket.
Loop strap together by threading up through the bottom of back slot of buckle and down through the front slot of buckle (as pictured). The nylon strap helps secure the DU-HA from tipping forward.

The DU-HA bolts to rear floor flaps to allow access to jack when tilted forward.

6 If desired, install foam organizer/gun racks with plastic stiffeners by bending and snapping them into channel slots in DU-HA. Gun racks will hold two guns or one gun depending on how you install them.

Safety Instructions:

<u>Warning:</u> Seat back must be latched up at all times while vehicle is moving. Make sure the DU-HA is secured in the vehicle according to installation instructions. Do not store explosives or hazardous materials in the DU-HA. Do not place loaded guns in the DU-HA.

For further instructions refer to truck owners manual or contact DU-HA, Inc.

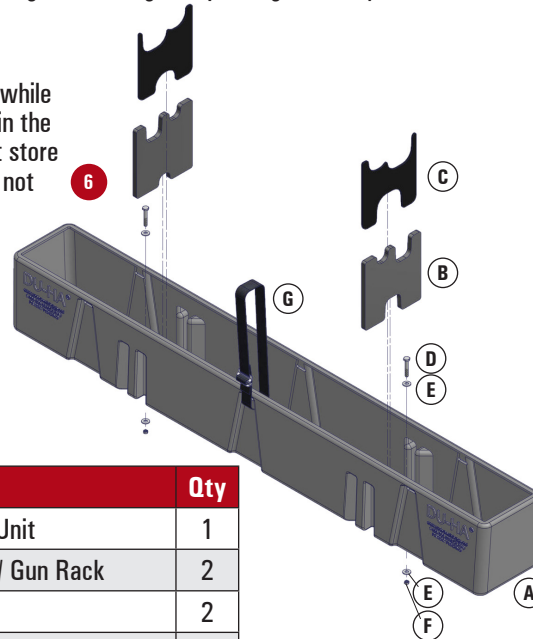

Ribs on buckle should face up. Thread strap through buckle as shown.

This is how the DU-HA should look installed behind the back seat.

2 extra straps are included to secure guns/gear in place.

Part	Part #	Description	Qty
A	...	DU-HA Storage Unit	1
B	Divider-10013	Foam Organizer / Gun Rack	2
